

Section Introduction <Doc 000017X-Day 00006Y BI>

Monday, July 31, 2023

3:54 PM

07.05.2023

The first thing we'll do is connect, shape, and transform our source data using Power Query

We'll be extracting, cleaning and shaping data to prepare it for modeling and analysis

Topics for this Section

- Intro to Power Query
- The Query Editor
- Data QA & Profiling
- Calendar Tools
- Data Connectors
- Connection Modes
- Table Transformations
- Combining Queries

Goals for this Section

- Explore Power BI's query editor
- Introduce different types of connectors
- Review tools for checking data quality and key profiling metrics
- Transform tables using text, numerical and date/time tools
- Practice combining, modifying and refreshing queries
